

**Medical University of Graz - Tenure Track Professor of Function and Health of Beta Cells – Applications until: 12.12.2024**

Tenure Track Professor of Function and Health of Beta Cells, Gottfried Schatz Research Center for Cell Signaling, Metabolism and Aging, Division of Molecular Biology and Biochemistry; Full-time position (100%); initially limited to 6 years, becoming a tenured position when the qualification agreement is met. We are looking for an excellent researcher with great potential to develop an internationally recognized research agenda in the fields of (cellular) (energy) metabolism, signaling, molecular biology and biochemistry. The successful candidate is expected to conduct research and teaching in molecular biology and biochemistry, focusing on the function and health of beta cells. The new position will complement the research activities of the Division of Molecular Biology and Biochemistry at the Gottfried Schatz Research Center Graz. The initial appointment is limited to six years. After the conclusion of a qualification agreement, the career advancement goal is to transfer to a tenured position as an associate professor (tenure track professor pursuant to § 99 para. 5 and 6 of the Universities Act). The qualification agreement may be fulfilled more quickly if the candidate demonstrates outstanding and remarkable achievements. More details and application you can find here: <https://www.medunigraz.at/en/job-openings/tenure-track-professorships> Application deadline: 12 December 2024. Please note that we can only consider complete applications that have been received by the application deadline. A list of the documents to be submitted can be found here: [https://www.medunigraz.at/frontend/user\\_upload/OEs/oehuman-resources/pdf/bewerbung\\_tenure\\_track\\_professur.pdf](https://www.medunigraz.at/frontend/user_upload/OEs/oehuman-resources/pdf/bewerbung_tenure_track_professur.pdf) Statutory information: The minimum remuneration is based on the collective agreement for university employees (KV § 49.2). Scheduled date for job interviews: 11 February 2025 at the Medical University of Graz The Medical University of Graz is committed to increasing the proportion of women in leading positions and encourages qualified women to apply. Among applicants with equal qualifications, female applicants will be given priority. We also welcome applications from qualified individuals with disabilities and encourage them to apply.
